REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

Key to the claimed invention is the building of a disk image to be copied to another computer by using the de-installation information. The Examiner reviewed Security (class 713) for malicious code used to copy software. Both the use of installed software the registry and the operating systems de-installer program were considered.

Furthermore, Image backup utilities were reviewed but the utilities did not build their image with de-installation information. Some of the references considered were the commercial product Ghost from 1999. and USPN #7,181,740 were the Bill of Material is not de-installation information. USPN 6,721,946 which represents a more traditional approach to building ordered software. And USPN 7,047,380 a data back up system which as figure 9-1 depicts builds its information using Data Storage Blocks.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
